Personal Website

Career Objective

- I am seeking a position in the web development and software engineering field. With a strong foundation in programming and my growing expertise in development tools, I am eager to apply my skills and gain practical experience. I am enthusiastic about contributing to a dynamic and innovative team.

Skills and Technologies

Proficient: Python, HTML, CSS

Familiar: C, SQL, JavaScript, PHP, MERN

Projects

ExpenseSplittr | MERN | *GitHub Repo*

- A website designed for bachelors to simplify the shared living experience. Users can find nearby homes, keep track of their shared expenses, and manage interpersonal debt-related issues.

QuickRent | HTML, CSS, PHP | *GitHub Repo*

- A website designed as an online car rental management system, so that the users can rent a car quickly in three easy steps.

Playbeats | HTML, CSS, PHP | *GitHub Repo*

- A website designed incorporating user authentication to help its users to view contents directly from the official YouTube pages of the music artists of their preference.

Achievements

- All Girls' Best Team, Div-2 (BRACU Intra Programming Contest, FALL'22)
